

A vertical photograph featuring three Tasmanian devils in a dark, rainy forest at night. A full moon is visible in the upper right corner. The devils are shown in various poses: one in the foreground with its mouth wide open, showing its teeth and tongue; another in the middle ground with its mouth open; and a third in the background. The scene is illuminated by a soft light, possibly from the moon or a camera flash, highlighting the texture of the devils' fur and the rain falling around them.
